February 15, 1996

Mr. Phillip Greenspan
101 Forge Lane
Marshfield, Ma. 02050

My Name is David W. Groth, president of Radio Engineering Services, and I am responsible for engineering at radio station WGNA, located in Albany, New York.

This letter serves to confirm your reception of WGNA-AM on Sunday, November 26, 1995 at 0032, Eastern Standard Time. WGNA operates a Harris BC-5HA model transmitter at 5.4 Kilowatts non-directional antenna daytime, and directional antenna nightime. Our audio processor is an Optimod unit. Audio is microwaved to the site through our sister stations transmitter, WGNA-FM 107.7, using a Moseley Digital system. Our consoles are Pacific Recorders.

I am happy to reply to your request, and I wish you best of health and happiness in 1996.

Regards,

Dave
